[LinkedIn](#) | [GitHub](#) | [Portfolio Website](#)

### PROFESSIONAL SUMMARY

Dependable and self-motivated professional with an Accounting major. Currently working towards full stack web developer certification at Bloom Tech and is seeking a full-time developer role at entry level.

### FULL STACK PROJECTS

Portfolio | 01/2022 | [Code](#) | [Site](#)

- Adopted **Redux** and **React** hooks to store darkmode and active navigation menu item
- Created maintainable and reusable css components using **SASS** and **Bootstrap**
- Ensured Responsive Web Design by using **Media Queries**
- Adopted **Redux** and **React** hooks to store darkmode and active navigation menu item
- Improved designs with **advanced CSS** (Flexbox, cdnjs libraries, shadows, transitions)

Coder Heroes | 12/2021 | [Code](#)

Group project - A web application for a real non-profit organization, Code Your Dreams, to aid in the cause of helping underprivileged youth in the Chicagoland area break into tech by offering coding courses

- Implemented **Agile Methodology** to constantly deliver working products after each Sprint. Closely interacted with stakeholders to have a clear vision of the product and to build backlogs. Conducted everyday stand up to keep all members up to date. All members committed to welcome any changes in the development phase
- Frequently communicated and collaborated with back end engineers to determine database schema and data structure, and with UX engineers to decide frameworks and design for the app
- Wrote codes to build payment feature using **Stripe**, for both front end and back end
- Utilized **Ant Design** to ensure unified and high quality design of the application
- Contributed in reviewing, resolving conflicts and approving Pull Requests on **GitHub**

Anywhere Fitness | 10/2021 | [Code](#) | [Site](#)

An individual project covered from front end to backend whose product is a React web application for clients to register and health coaches to create fitness classes anywhere around the nation

- Built a maintainable application and improved its scalability by using advanced state management tool, **Redux**
- Used relational database management systems, **PostgreSQL**, together with **Node.js** and **Express framework** to design a **RESTful Web API** and to build the entire database
- Created log in, sign up, class form, along with form validations using **yup**
- Deployed successfully front end with **Vercel** and backend with **Heroku**

### WORK HISTORY

Accounting & Tax Intern, Wade R. Kawakami, C.P.A | 02/2021 - 06/2021

- Assisted 60+ customers to prepare **balance sheet**, **P&L**, **trial balance** and e-file **income tax return**, including fiduciaries and corporations by the due date, resulting in high customer satisfactions with positive feedbacks and zero complaint
- Managed **bookkeeping** and reconciled monthly bank statements for clients' businesses

Assistant of General Manager, Interfoods Shareholding Co., | 12/2014 - 03/2017

- Interpreted, reviewed and translated contracts, legal documents, and law application documents into Vietnamese-Japanese
- Utilized **Excel skill** to assisted **supply chain management** group to control expired/close-to-expired products, leading to a 90% reduction in unnecessary waste, along with building more efficient production plans

### SKILLS

#### FRONT END

- JavaScript ES6
- React
- Redux
- Stripe
- SASS
- Bootstrap
- Ant Design

#### BACK END

- Node JS
- Express
- REST API
- Bcryptjs
- JSON Web Token
- Knex.js
- Python

#### DATABASE

- PostgreSQL
- SQLite

#### VERSION CONTROL TOOLS

- Git/ GitHub

#### TESTING

- Cypress
- React Testing Library
- Jest
- Supertest
- Test-Driven Development
- Postman/ HTTPie

### EDUCATION

#### Full Stack Web Development
